

AST™ BRAKE CLEANER Aerosol

WWW.ANTISEIZE.COM

Product Description

AST™ Brake Cleaner is a fast acting solvent that dissolves and removes brake fluid, grease, oil, dirt and brake dust from all brake system components including disk brake rotors and drum brake systems. AST™ Brake Cleaner also helps to eliminate disc brake squeal and chatter.

AST™ Brake Cleaner contains Perchloroethylene which quickly dissolves grease and oil deposits but evaporates completely and does not leave a film behind. The powerful spray gets into those hard to reach crevices and leaves parts clean and ready to be used.

Features & Benefits

- Non-Flammable, Non-corrosive
- Quickly cuts through grease, oil and brake fluids
- Leaves no Residues behind
- Can apply without disassembly

Applications include

Brake linings, disc brake pads, drums, rotors, and other brake components. Works on clutch assemblies, electric motor and alternators as a degreaser. Cleans stains from carpets and fabrics

Typical Properties

Property	Value
Color	Clear
Specific Gravity	1.6
Flash Point	No flash point
RoHS	Compliant

Cautions

Read all information on labels and Material Safety Data Sheets prior to use. All products should be tested and evaluated for a particular purpose prior to use. Use with adequate ventilation.

GHS compliant

This product requires GHS pictograms on labels.
Refer to Label and SDS for GHS information.

Product Limited Warranty

This information is based on information we believe to be reliable and accurate, but no guarantee of its accuracy is made for a particular application. We urge and recommend that Users pretest their application prior to incorporating the product into use and assume that the User will conduct such testing. Also see warranty statement on website.
