

**ANTI-SEIZE TECHNOLOGY**  
A.S.T. Industries, Inc.

# ZINC ANTI-SEIZE

## Zinc Dust and Petrolatum Compound

### SAFETY DATA SHEET

#### Section 1- Product and Company Identification

**Manufacture/Supplier :** Anti-Seize Technology  
2345 N. 17<sup>th</sup> Ave.  
Franklin Park, IL 60131

**Phone:** 847-455-2300

**Fax:** 847-455-2371

**Web:** antiseize.com

**Emergency Phone, 24 hr:** Infotrac @ 1-800-535-5053 ( US & Canada )

1-352-323-3500 ( International )

**Web:** infotrac.net

**Product Use:** Anti-Seize compound

**Date:** June 2021

#### Section 2-Hazard Identification

**GHS Classification (Hazcom 2012):**

Not Hazardous

**Label Elements:**

Not hazardous in accordance with the OSHA Hazard Communication Standard (29CFR 1910.1200).

**Hazard Phrases:**

None

**Precautionary Phrases:**

None

**Other Hazards:** None

**Storage:**

When not in use keep container closed

Keep away from children

**Disposal:** Dispose of contents in accordance with local, regional and national regulations.

#### Section 3- Composition/ Information on Ingredients

CHEMICAL	CAS NUMBER	PERCENT
Zinc	7440-66-6	30-60
Petrolatum	8027-32-5,8009-03-8	30-60
Zinc Oxide	1314-13-2	<0.75

The specific identity and/or exact percentage of composition has been withheld as a trade secret

#### Section 4 – First Aid Measures

**Eye:** Flush eyes with water, holding the eyelids apart. Get medical attention if irritation develops or persists.

**Skin:** Wash thoroughly with plenty of water. Get medical attention if irritation persists.

**Inhalation:** Remove to fresh air and keep comfortable for breathing. If irritation occurs, get medical attention.

**Ingestion:** If large amounts ingested, seek medical attention.

**Most Important symptoms and effects, both acute and delayed:** Swallowing will cause nausea and intestinal upset. Inhalation of vapors and fumes from thermal decomposition may cause respiratory irritation and metal fume fever with symptoms of fever and chills. May cause mild eye and skin irritation.

**Indication of any immediate medical attention and special treatment needed:** Immediate medical attention not required.

### Section 5 – Fire Fighting Measures

**Suitable and Unsuitable Extinguishing Media:** Use water spray or fog, foam, carbon dioxide or dry chemical.

**Special Hazards Arising from the Chemical:** This compound will not burn unless it is pre-heated. Water fog may be used to cool the containers but do not spray directly into large containers of burning liquids as frothing may occur. Dense smoke and noxious or toxic fumes may be generated in a fire. The thermal decomposition products are highly dependent upon the combustion conditions. Noxious or toxic fumes may be generated, some of which may be toxic or irritating.

**Special Equipment and Precautions for Fire-Fighters:** Wear NIOSH approved positive pressure, self-contained breathing apparatus and full protective clothing. Cool fire exposed containers with water.

### Section 6 – Accidental Release Measures

**Personal Precautions, Protective Equipment and Emergency Procedures:** Wear appropriate personal protective equipment. Use caution: slip hazard.

**Environmental Hazards:** Report spills and releases as required to appropriate authorities.

**Methods and Material for Containment and Cleaning Up:** Because of its viscous nature, this product is not expected to leak or spill. Collect liquid spill with an inert absorbent material and place into a suitable container for disposal.

### Section 7 – Handling and Storage

**Precautions for Safe Handling:** Avoid contact with eyes. Avoid prolonged skin contact. Do not transfer to unlabeled containers.

**Conditions for Safe Storage, Including any Incompatibilities:** Store away from extreme heat and open flames. Store away from oxidizers.

### Section 8 – Exposure Controls / Personal Protection

Zinc	None Established
Petrolatum	None Established
Zinc Oxide	2 mg/m <sup>3</sup> TWA ACGIH TLV (respirable), 10 mg/m <sup>3</sup> STEL (respirable) 15 mg/m <sup>3</sup> TWA OSHA PEL (total dust), 5 mg/m <sup>3</sup> TWA (respirable fraction)

**Appropriate Engineering Controls:** Use with adequate general or local exhaust ventilation to maintain exposure levels below the exposure limits. If the product is used at high temperatures, local exhaust ventilation may be required.

#### Individual Protection Measures:

**Respiratory Protection:** In operations where the occupational exposure limits are exceeded, a NIOSH approved respirator with organic vapor/particulate cartridges or supplied air respirator appropriate for the form and concentration of the contaminants should be used. Selection and use of respiratory equipment must be in accordance with OSHA 1910.134 and good industrial hygiene practice.

**Skin Protection:** Impervious gloves such as rubber or nitrile recommended where needed to avoid prolonged skin contact.

**Eye Protection:** Safety glasses or goggles recommended where needed to avoid eye contact.

### Section 9 – Physical and Chemical Properties

<b>Appearance:</b> Gray colored paste	<b>Vapor Density (air = 1):</b> Not available
<b>Odor:</b> Mild odor	<b>Specific Gravity:</b> 1.3
<b>Odor Threshold:</b> Not established	<b>Water Solubility:</b> Not soluble
<b>pH:</b> Not available	<b>Octanol/Water Partition Coefficient:</b> Not available
<b>Melting Point/Freezing Point:</b> <150F° (65.56°C)	<b>Autoignition Temperature:</b> Not available
<b>Boiling Point:</b> Not available	<b>Decomposition Temperature:</b> Not available
<b>Flash Point:</b> 340°F ( 171° C)	<b>Viscosity:</b> Not available
<b>Evaporation Rate:</b> Not available	<b>Explosion Properties:</b> Not explosive
<b>Flammable Limits:</b> LEL: Not established UEL: Not established	<b>Oxidizing Properties:</b> Not oxidizing
<b>Vapor Pressure:</b> <0.1 kPa@20°C (68°F)	<b>Aerosol Fire Protection Level:</b> Not applicable
<b>VOC Content:</b> <0.5%	<b>Flammability (solid, gas):</b> Not available

### Section 10 – Stability and Reactivity

**Reactivity:** Not reactive under normal conditions of use.

**Chemical Stability:** Stable under normal storage and handling conditions.

**Possibility of Hazardous Reactions:** None known

**Conditions to Avoid:** Use with strong oxidizing chemicals such as concentrated acids.

**Incompatible Materials:** Avoid strong oxidizing agents and acids.

**Hazardous Decomposition Products:** The thermal decomposition products are highly dependent upon the combustion conditions. Noxious or toxic fumes may be generated, some of which may be toxic or irritating.

### Section 11 – Toxicological Information

**Potential Health Effects:**

**Eye:** May cause mild irritation.

**Skin:** Prolonged contact may cause irritation and drying of the skin.

**Inhalation:** No adverse effects expected at ambient temperatures. Inhalation of vapors and fumes from thermal decomposition may cause respiratory irritation and metal fume fever with symptoms of fever and chills.

**Ingestion:** Swallowing may cause gastrointestinal irritation, nausea, vomiting, diarrhea.

**Chronic Hazards:** Prolonged inhalation of thermal decomposition products may result in lung damage.

**Carcinogen Status:** None of the components of this product are listed as carcinogens by IARC, NTP or OSHA.

**Acute Toxicity Values:**

Zinc: Oral rat LD50 > 2000 mg/kg, inhalation rat LC50 >5.41 mg/L

Petrolatum: No data available.

Zinc Oxide: Oral mouse LD50 > 5000 mg/kg, inhalation rat LC50 > 1.79 mg/L, dermal rat LD50 > 2000 mg/L

### Section 12 – Ecological Information

**Ecotoxicity:**

Zinc: Cottus bairdii LC50: 0.439 ,g/L/96hr

Zinc Oxide: Danio rerio LC50: 3.31 mg/L/96h

This product is classified as very toxic to aquatic life with long-lasting effects.

**Persistence and Degradability:** No data available

**Bioaccumulative Potential:** No data available

**Mobility in Soil:** No data available  
**Other Adverse Effects:** None known

### Section 13 – Disposal Consideration

**Waste disposal:** Dispose of in a responsible manner. Follow local, state and federal guidelines. Do not discharge into sewers or waterways. Incineration is the preferred method of disposal, although it may be landfilled at an approved facility.

### Section 14- Transport Information

#### DOT

**Proper Shipping Name:** Not Regulated  
**DOT Hazard Class:** None  
**UN Number:** None  
**Packing Group:** None

#### IMDG

**Shipping Description:** Environmentally Hazardous Substance, liquid n.o.s.  
**Hazard Class:** 9  
**Identification Number:** UN3082  
**Packing Group:** III

#### ICAO/IATA

**Shipping Description:** Environmentally Hazardous Substance, liquid n.o.s.  
**Hazard Class:** 9  
**Identification Number:** UN3082  
**Packing Group:** III

### Section 15 – Regulatory Information

**Safety, health, and environmental regulations specific for the product in question.**

**CERCLA Hazardous Substances (Section 103)/RQ:** Releases above the RQ of 1,666.67 lbs (based on the RQ for Zinc of 1,000 lbs present at 30-60%) must be reported to the National Response Center. However, many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

**SARA Hazard Category (311/312):** Not Hazardous

**SARA 313:** This product contains the following chemicals regulated under SARA Title III, section 313: Zinc, 30-60%

**EPA TSCA Inventory:** All of the components of this product are listed on the TSCA inventory.

**CALIFORNIA PROPOSITION 65:** None listed

### Section 16 – Other Information:

**Revision Summary:** New format to comply with OSHA Hazcom 2012

#### Notice to reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
