ZINC ANTI-SEIZE
Zinc Dust and Petrolatum Compound
SAFETY DATA SHEET

Section 1- Product and Company Identification

Manufacture/Supplier: Anti-Seize Technology
2345 N. 17th Ave.
Franklin Park, IL 60131

Phone: 847-455-2300
Fax: 847-455-2371
Web: antiseize.com
Emergency Phone, 24 hr: Infotrac @
1-800-535-5053 (US & Canada)
1-352-323-3500 (International)
Web: infotrac.net

Product Use: Anti-Seize compound

Date: August 14, 2019

Section 2-Hazard Identification

GHS Classification (Hazcom 2012):
Not Hazardous

Label Elements:

Hazard Phrases:
None

Precautionary Phrases:
None

Other Hazards: None

Storage:
When not in use keep container closed
Keep away from children

Disposal: Dispose of contents in accordance with local, regional and national regulations.

Section 3- Composition/ Information on Ingredients

<table>
<thead>

The specific identity and/or exact percentage of composition has been withheld as a trade secret.
Section 4 – First Aid Measures

**Eye:** Flush eyes with water, holding the eyelids apart. Get medical attention if irritation develops or persists.

**Skin:** Wash thoroughly with plenty of water. Get medical attention if irritation persists.

**Inhalation:** Remove to fresh air and keep comfortable for breathing. If irritation occurs, get medical attention.

**Ingestion:** If large amounts ingested, seek medical attention.

**Most Important symptoms and effects, both acute and delayed:** Swallowing will cause nausea and intestinal upset. Inhalation of vapors and fumes from thermal decomposition may cause respiratory irritation and metal fume fever with symptoms of fever and chills. May cause mild eye and skin irritation.

**Indication of any immediate medical attention and special treatment needed:** Immediate medical attention not required.

Section 5 – Fire Fighting Measures

**Suitable and Unsuitable Extinguishing Media:** Use water spray or fog, foam, carbon dioxide or dry chemical.

**Special Hazards Arising from the Chemical:** This compound will not burn unless it is pre-heated. Water fog may be used to cool the containers but do not spray directly into large containers of burning liquids as frothing may occur. Dense smoke and noxious or toxic fumes may be generated in a fire. The thermal decomposition products are highly dependent upon the combustion conditions. Noxious or toxic fumes may be generated, some of which may be toxic or irritating.

**Special Equipment and Precautions for Fire-Fighters:** Wear NIOSH approved positive pressure, self-contained breathing apparatus and full protective clothing. Cool fire exposed containers with water.

Section 6 – Accidental Release Measures

**Personal Precautions, Protective Equipment and Emergency Procedures:** Wear appropriate personal protective equipment. Use caution: slip hazard.

**Environmental Hazards:** Report spills and releases as required to appropriate authorities.

**Methods and Material for Containment and Cleaning Up:** Because of its viscous nature, this product is not expected to leak or spill. Collect liquid spill with an inert absorbent material and place into a suitable container for disposal.

Section 7 – Handling and Storage

**Precautions for Safe Handling:** Avoid contact with eyes. Avoid prolonged skin contact. Do not transfer to unlabeled containers.

**Conditions for Safe Storage, Including any Incompatibilities:** Store away from extreme heat and open flames. Store away from oxidizers.

Section 8 – Exposure Controls / Personal Protection

<table>

</thead>
<tbody>
<tr>
<td>Zinc</td>
<td>None Established</td>
</tr>
<tr>
<td>Petrolatum</td>
<td>None Established</td>
</tr>
<tr>
<td>Zinc Oxide</td>
<td>2 mg/m3 TWA ACGIH TLV (respirable), 10 mg/m3 STEL (respirable), 15 mg/m3 TWA OSHA PEL (total dust), 5 mg/m3 TWA (respirable fraction)</td>
</tr>
</tbody>
</table>
Appropriate Engineering Controls: Use with adequate general or local exhaust ventilation to maintain exposure levels below the exposure limits. If the product is used at high temperatures, local exhaust ventilation may be required.

Individual Protection Measures:
Respiratory Protection: In operations where the occupational exposure limits are exceeded, a NIOSH approved respirator with organic vapor/particulate cartridges or supplied air respirator appropriate for the form and concentration of the contaminants should be used. Selection and use of respiratory equipment must be in accordance with OSHA 1910.134 and good industrial hygiene practice.

Skin Protection: Impervious gloves such as rubber or nitrile recommended where needed to avoid prolonged skin contact.

Eye Protection: Safety glasses or goggles recommended where needed to avoid eye contact.

Section 10 – Stability and Reactivity

Reactivity: Not reactive under normal conditions of use.

Chemical Stability: Stable under normal storage and handling conditions.

Possibility of Hazardous Reactions: None known

Conditions to Avoid: Use with strong oxidizing chemicals such as concentrated acids.

Incompatible Materials: Avoid strong oxidizing agents and acids.

Hazardous Decomposition Products: The thermal decomposition products are highly dependent upon the combustion conditions. Noxious or toxic fumes may be generated, some of which may be toxic or irritating.
Section 11 – Toxicological Information

Potential Health Effects:

**Eye:** May cause mild irritation.

**Skin:** Prolonged contact may cause irritation and drying of the skin.

**Inhalation:** No adverse effects expected at ambient temperatures. Inhalation of vapors and fumes from thermal decomposition may cause respiratory irritation and metal fume fever with symptoms of fever and chills.

**Ingestion:** Swallowing may cause gastrointestinal irritation, nausea, vomiting, diarrhea.

**Chronic Hazards:** Prolonged inhalation of thermal decomposition products may result in lung damage.

**Carcinogen Status:** None of the components of this product are listed as carcinogens by IARC, NTP or OSHA.

**Acute Toxicity Values:**
- Zinc: Oral rat LD50 > 2000 mg/kg, inhalation rat LC50 > 5.41 mg/L
- Petrolatum: No data available.
- Zinc Oxide: Oral mouse LD50 > 5000 mg/kg, inhalation rat LC50 > 1.79 mg/L, dermal rat LD50 > 2000 mg/L

Section 12 – Ecological Information

**Ecotoxicity:**
- Zinc: Cottus bairdii LC50: 0.439 g/L/96hr
- Zinc Oxide: Danio rerio LC50: 3.31 mg/L/96h

This product is classified as very toxic to aquatic life with long-lasting effects.

**Persistence and Degradability:** No data available

**Bioaccumulative Potential:** No data available

**Mobility in Soil:** No data available

**Other Adverse Effects:** None known

Section 13 – Disposal Consideration

**Waste disposal:** Dispose of in a responsible manner. Follow local, state and federal guidelines. Do not discharge into sewers or waterways. Incineration is the preferred method of disposal, although it may be landfilled at an approved facility.

Section 14- Transport Information

**DOT**
- **Proper Shipping Name:** Not Regulated
- **DOT Hazard Class:** None
- **UN Number:** None
- **Packing Group:** None

**IMDG**
- **Shipping Description:** Environmentally Hazardous Substance, liquid n.o.s.
- **Hazard Class:** 9
- **Identification Number:** UN3082
Packing Group: III

ICOA/IATA
Shipping Description: Environmentally Hazardous Substance, liquid n.o.s.
Hazard Class: 9
Identification Number: UN3082
Packing Group: III

Section 15 – Regulatory Information

Safety, health, and environmental regulations specific for the product in question.

CERCLA Hazardous Substances (Section 103)/RQ: Releases above the RQ of 1,666.67 lbs (based on the RQ for Zinc of 1,000 lbs present at 30-60%) must be reported to the National Response Center. However, many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

SARA Hazard Category (311/312): Not Hazardous

SARA 313: This product contains the following chemicals regulated under SARA Title III, section 313: Zinc, 30-60%

EPA TSCA Inventory: All of the components of this product are listed on the TSCA inventory.

CALIFORNIA PROPOSITION 65: None listed

Section 16 – Other Information:
The information contained herein is based on data considered accurate, however, no warranty is expressed or implied regarding the accuracy of the data or the results obtained from the use of his product. Therefore, because the product may be used under conditions beyond our control, we assume no liability for its use.
