

AST™ CONTACT CLEANER

Non-Flammable Aerosol

WWW.ANTISEIZE.COM

Product Description

AST™ Contact Cleaner is specifically designed solvent which cleans electrical contacts and electrical components. Over time electrical contacts can oxidize resulting in loss of performance and our AST™ Contact Cleaner will aid in removing oxidation from the contacts and restore performance.

AST™ Contact Cleaner will remove grease, oil, flux and dirt from electrical devices. It is non-flammable and quickly evaporates leaving no residues behind. It is a safe alternative to Chlorinated solvents which can harm plastic electrical components.

AST™ Contact Cleaner is a non-flammable cleaner which can be safely used with the equipment in use.

Features & Benefits

- Non-flammable formula per flame extension test
-
- Non-Conducting, non-staining, non-corrosive
- Quick cleaning action leaves no residue
- Will not harm most plastics, paint or insulation
- May be applied while equipment is in use
- CFC Free Formula
- No Hazardous Air Pollutants

Applications include

Switches and contacts, Magnetic and video tape heads, motors, precision instruments, copiers, printed circuit boards, relays, alarm systems, telephone switching gear, control panels, Audio/Video connections, Power tools, Tuners

Typical Properties

Property	Value
Color	Clear
Specific Gravity	1.3
Boiling point	160F
Flash Point	None
Dielectric Strength	18,000 volts
Toxicity	Non Toxic
RoHS	Compliant

Cautions

This product is not recommended for use in an oxygen system and for chlorine or other strong oxidizing materials. Always spot test your components before using. Read all information on labels and Material Safety Data Sheets prior to use. All products should be tested and evaluated for a particular purpose prior to use.

GHS compliant

[This product requires GHS pictograms on labels. Refer to Label and SDS for GHS information.](#)

Product Limited Warranty

This information is based on information we believe to be reliable and accurate, but no guarantee of its accuracy is made for a particular application. We urge and recommend that Users pretest their application prior to incorporating the product into use and assume that the User will conduct such testing. Also see warranty statement on website.
