

# RUST TREATMENT AEROSOL

www.antiseize.com

## Product Description

RUST TREATMENT is a rust converter designed to be directly applied to rusty surfaces to convert residual rust on steel surfaces.

RUST TREATMENT converts loose, porous iron oxide into a stable blue/black corrosion resistant product. Unlike standard scrape, prime and paint regimes, the user does not have to bring the surface down to bare metal to achieve good results. RUST TREATMENT will extend the life of rusted iron parts. It's less expensive, less time consuming than traditional methods.

Remove all loose paint, dirt and grease from the surface. Shake well for a minute. Hold 8"-10" away from the part and spray. Two or more coats may be applied if necessary. The product will dry to a paintable black finish. Allow to cure for 24 hrs..

This can be followed up by applying a coating of a zinc rich cold galvanizing spray and/or a top coating of paint to protect the finish. Without a top coat the protective film will degrade.

## Features & Benefits

- Stops rusting
- Protects surfaces to resist the effects of weather
- Ready to use formula
- Eliminates lengthy surface preparations
- Primer for oil based or water based paints
- Does not leave a powdery surface
- Will not peel or crack
- Long-term protection on steel and iron
- Does not contain lead or phosphoric acid

## Applications include

- All rusting steel and iron
- Can be applied using a brush or roller
- Product arrives ready to use
- Read product label for addition application information

## Typical Properties

Property	Value
Color	Clear (in can), Black (after cured)
Flash Point	Highly Flammable until dry
Cure Time	24hr at room temperature
Toxicity	Not determined
Consistency	Spray
RoHS	Compliant

## Cautions

Read all information on labels and Safety Data Sheets prior to use. All products should be tested and evaluated for a particular purpose prior to use. See Warranty Statement in our Catalog or on our Website.

**GHS information (Bulk material only)**  
**Pressurized cans require GHS labeling.**

**GHS Panel**  
**Classified as Non-Hazardous under**  
**HazCom 2012(OSHA GHS)**  
**Read SDS for additional information**

## Product Limited Warranty

This information is based on information we believe to be reliable and accurate, but no guarantee of its accuracy is made for a particular application. We urge and recommend that Users pretest their application prior to incorporating the product into use and assume that the User will conduct such testing. Also see warranty statement on website.
