

CA-020™

Instant Adhesive

WWW.ANTISEIZE.COM

Product Description

CA-020™ is a Medium setting general purpose instant adhesive based on ethyl-cyanoacrylate. It is a general purpose instant adhesive with a normal viscosity. CA-020™ is fast curing and has good elasticity for bonding metal, rubber, glass, dissimilar materials and some plastics. CA-020™ offers good climatic, thermal and impact resistance. CA-020™ may require up to 8 to 12 seconds to initially bond the parts together. CA-020™ is capable of filling gaps up to .006 inches.

Features & Benefits

- Versatile and general purpose instant adhesive
- Elastic nature aids in bonding dissimilar materials
- Fast overall cure speed
- Single component requires no mixing
- Solvent Free
- Use on same or dissimilar materials

Storage and Shelf Life

CA-020™ can be stored at Room Temperatures and should have a shelf life of at least one year. For a longer Shelf Life it should be stored in a cool, dry location in unopened containers. Optimal storage temperature is under 50°F.

To prevent contamination on unused product do not return any material to its original container

Typical Properties

Property	Value
Color	Clear
Specific Gravity	1.05
Viscosity	100 cps
Temperature range	-40°F to 180°F (-40 - 82°C)
Cure Speed	10 seconds average
Full cure	8 hours
Gap Fill	.006"
MIL A 46050	Type II, Class I
RoHS 3	Compliant

Cautions

Read all information on labels and Safety Data Sheets prior to use. All products should be tested and evaluated for a particular purpose prior to use. CA-020™ when cured can be removed by using Acetone. Some Nail Polish Removers contain Acetone but check the label to make sure. In the event that other body parts such as eyelids or lips become glued together, check the Internet for solutions or consult your Physician.

GHS compliant

This product requires GHS pictograms on labels.
Refer to Label and SDS for GHS information.

Product Limited Warranty

This information is based on information we believe to be reliable and accurate, but no guarantee of its accuracy is made for a particular application. We urge and recommend that Users pretest their application prior to incorporating the product into use and assume that the User will conduct such testing. Also see warranty statement on website.
