

Battery Cleaner w/ Indicator

Bulk and Aerosol

WWW.ANTISEIZE.COM

Product Description

Battery Cleaner w/ Indicator is a foaming cleanser specially designed to neutralize battery acid deposits left over from charging or maintenance of the battery. It will dissolve the white build up of corrosion products found on Battery Terminals and Cables and contains powerful cleaners which dissolve grease and grime leaving them clean, neutralized and ready to be sealed..

Our Battery Cleaner contains a Visual Indicator which turns **RED** in the presence of acid and turns **YELLOW** when the acid residuals have been neutralized. Simply spray on wait a minute or two and wipe it off of use water to flush.

Battery Cleaner w/ indicator is the complimentary product to our **Battery Protector and Sealer** (PN: 17211) Together they form a total battery maintenance system that will clean corrosive residues on your battery and then seal the battery surface and terminals to extend the life of your expensive batteries.

Battery Cleaner w/ indicator is available in an easy to use Aerosol can package or Liquid form for larger jobs or fleet maintenance.

Features & Benefits

- Neutralizes corrosive battery deposits
- Visual indicator allow you to see when the battery is clean and the acid deposits have been neutralized
- Removes destructive acid residue and corrosion deposits from your batteries
- Restores battery appearance
- Reduces Maintenance costs associated with poor electrical contacts around battery terminals
- Extends the life of a Battery

Applications include

Use on all Vehicle batteries, Truck, Automotive, Agriculture, Mining, Construction Equipment, Marine batteries, Forklifts and others

Typical Properties

Property	Value
Color	Amber colored
Specific Gravity	0.9
Flash Point	Non-Flammable
RoHS	Compliant

Cautions

Read all information on labels and Safety Data Sheets prior to use. All products should be tested and evaluated for a particular purpose prior to use.

GHS compliant

The aerosol product requires GHS pictograms on labels.

The bulk product does not require GHS pictograms Refer to Label and SDS for GHS information.

Product Limited Warranty

This information is based on information we believe to be reliable and accurate, but no guarantee of its accuracy is made for a particular application. We urge and recommend that Users pretest their application prior to incorporating the product into use and assume that the User will conduct such testing. Also see warranty statement on website.
