

# EXTRA SKIN™

## Protective Emollient

[WWW.ANTISEIZE.COM](http://WWW.ANTISEIZE.COM)

### **Product Description**

**Extra Skin™** is a skin protector that acts like a pair of invisible gloves to protect your skin from grease, grime and from chemicals that will damage and dry out your skin.

**Extra Skin™** can provide a very beneficial benefit to workers exposed to chemicals but can not wear gloves because of the risk of them getting caught in machinery or loss of hand dexterity. **Extra Skin™** is excellent for working with small parts where gloves may be burdensome. It helps prevent reactions caused by latex sensitivity.

**Extra Skin™** can help to prevent Occupational Dermatitis, a serious skin condition that can lead to dry, cracked skin which allows harmful substances to more easily penetrate the skin. This product can help reduce workers disability claims and allow them to function more efficiently.

**Extra Skin™** allows skin to flex and breathe while protecting your skin. It forms a highly resistant barrier between skin and dirt, oil, grease, solvents, paints, fiberglass fibers, resin, alkalis, mild acids, inks, tar and shop grime.

**Extra Skin™** also contains emollients which help to restore moisture to dry skin and help to prevent dry, cracked skin.

### **Features & Benefits**

- Protects hand for up to 4 hours
- Smooth cream, greaseless, dries fast, lets skin breath
- Hypo-allergenic
- Makes hand clean up easy
