

BATTERY PROTECTOR AND SEALER Aerosol

WWW.ANTISEIZE.COM

Product Description

Battery Protector and Sealer is a long lasting solution to prevent damage to your battery caused by acid fumes generated when charging your battery. It seals battery surfaces and prevents corrosion from acid fumes. It allows batteries to be kept in optimal condition even during long term storage conditions. Excellent for protecting battery terminals from excessive corrosive build up and lost power due to poor electrical contact. Battery Protector and Sealer is a complimentary product to our Battery Cleaner with indicator to ensure optimum performance and extend the life of the battery. First use Battery Cleaner, and then apply the Battery Protector and Sealer.

Battery Protector and Sealer

Features & Benefits

- Bonds to battery surface
- Remains flexible, will not peel or crack
- Ideal for long term battery storage
- Improves electrical output
- Reduces battery care and replacement cost
- Helps to eliminate costly maintenance due to poor electrical contact
- Fights corrosion on battery terminals
- Inhibits sulfate deposits on terminals and contact points

Applications include

All Vehicle Batteries, forklifts, construction equipment, farm equipment, boat batteries, Truck, Agriculture, back up batteries, batteries in long term storage conditions.

Typical Properties

Property	Value
Color	Clear liquid
Specific Gravity	0.9
Viscosity	Thin liquid when applied, dries to durable coating
RoHS	Compliant

Cautions

This product is not recommended for use in an oxygen system and not as a sealant for chlorine or other strong oxidizing materials. Read all information on labels and Material Safety Data Sheets prior to use. All products should be tested and evaluated for a particular purpose prior to use.

Product Limited Warranty

This information is based on information we believe to be reliable and accurate, but no guarantee of its accuracy is made for a particular application. We urge and recommend that Users pretest their application prior to incorporating the product into use and assume that the User will conduct such testing. Also see warranty statement on website.
